CGPA: 9.24 / 10

12th

Sant Tukaram National Model School, Latur

2020 – 2022 | Latur, Maharashtra

Division /Percentage: 63

10th

Podar International School, Latur

2017 – 2020 | Latur, Maharashtra

Division /Percentage: 94.60

Internships

Codec Technologies

01/2026 – 04/2026

Completed a 3-month internship as a Full Stack Developer Intern at , where I gained hands-on experience in web development, project execution, and industry-level technologies while working on real-world development tasks and collaborative projects.

Prodigy Infotech

01/2026 – 02/2026

Completed a 1-month internship as a Generative AI Intern at [Prodigy InfoTech](https://prodigyinfotech.dev?utm_source=chatgpt.com), where I worked on AI-based projects and developed a "Text Generation using GPT-2" system using Python and the Hugging Face Transformers library. The internship enhanced my skills in Generative AI, NLP, transformer models, and real-world AI application development.

PROJECT UNDERTAKEN

Text Generation using GPT-2

The "Text Generation using GPT-2" project is an AI-based application developed using Python and the Hugging Face Transformers library to generate coherent and contextually relevant text through prompt-based input using the GPT-2 model.

Medibot

Academic Mini Project

MediBot is a smart healthcare assistant developed to provide quick and reliable basic medical guidance, helping users access instant support for minor health concerns anytime and anywhere.

COMPUTER SKILL

Operating Systems

- Microsoft Windows (Windows XP , Windows 7, Windows 10)
- Linux
- Android

Software Skill

- MSCIT
- Web Development
- Cyber Security
- Generative AI
- Full Stack Development
- HTML and CSS Developer
- Software Engineering
- Knowledge in some programming languages such as C,C++,PYTHON
- Database management (DBMS)

Language Knowledge

Marathi

Hindi

English
